Philippines

### WORK EXPERIENCE

None at the moment

### PROJECTS

#### BlockBlitz: A Tetris Game Final Project for 1st Semester | October 2023 - November 2023

Python

*Our game, BlockBlitz (Tetris), would be a tetris game that appeals to both new and old players. We will make a game that hits nostalgia for old players, and for new players, they could try our game and have fun playing it.*

#### -Project Features-

- **Graphical User Interface:** Tetris (BlockBlitz) will feature a unique design that could be eye-pleasing to our players.
- **Controls:** We'll implement controls that are new player-friendly and could be easily controlled with just the keyboard.
- **Soundtrack and Sound Effects:** Tetris (BlockBlitz) will include immersive sound effects that our players will enjoy while playing.
